Farm Labor

The Lake Region (Wisconsin, Michigan, and Minnesota) employed 74,000 agricultural workers during the week of July 10-16, 2011.

The average number of hours worked per employee in the Lake States was 36.7. The average wage rate for all hired agricultural workers was \$10.75 per hour. An employee is classified as a livestock worker if they are hired to primarily tend livestock, milk cows, care for poultry, or operate machinery on livestock farms. Livestock workers in the Lake Region earned an average of \$10.24 per hour during the reference week. If an employee is hired primarily to plant and harvest crops, including operating machinery on crop farms, they are considered a field worker. Field workers in the Lake Region averaged \$10.33 per hour during the July reference week.

There were 1.19 million people hired on U.S. farms and ranches the week of July 10-16, 2011. Of these workers, 836,000 were hired directly by farm operators. The remaining 350,000 people were hired for agricultural services. Some examples of agricultural service workers are people who do custom harvesting, veterinarians, and artificial insemination technicians. The average number of hours worked for all hired workers was 41.3. Farm operators paid their hired workers an average wage of \$10.90 per hour, up 11 cents from a year earlier. Field workers earned an average of \$10.24 per hour, while livestock workers averaged \$10.28 per hour.
